Article 18 Party B may not destroy supporting facilities; otherwise, Party B shall be responsible for recoveries to the original status and all the expenses for any damage.

Article 19 During the term of lease, Party A shall notify Party B in advance the operation to supporting facilities in the leased plant; Party A shall be responsible for recoveries to the original status and all the expenses for any damage to machines of Party B.

Chapter 8 Delivery of the General-use Plant

Article 20 Party A shall officially deliver the leased plant to Party B for use on October 20, 1999.

Article 21 Both parties shall give signatures on the delivery list on the delivery day, showing the successful delivery of the leased plant.

Chapter 9 Other Rights and Obligations

Article 22 Party B shall abide by the “Regulations on Using, Managing and Maintaining General-use Plants of Shanghai Jinqiao Export Processing Zone” (hereinafter referred to as the Regulations) during the term of lease. Prior to the delivery of procedures of the leased plant between both parties, Party B shall sign a management agreement with the property management company of Party A and accept the instructions of the company. Party B shall start to pay the property management fees from the delivery day of the leased plant. Party A shall continue to bear the management fees of vacant rooms for the space where Party B is exempted from rentals and property management fees. In the meantime, Party B shall pay rentals of two months (according to 1,201.13 square meters) to Party A as the deposit and such deposit shall be paid in a lump sum when paying the rental of the leased plant for the first time. (Please see the Regulations for details.)

Article 23 The maintenance of natural damages of the leased plant shall be the responsibility of Party A. Based on the maintenance cycle of the leased plant, Party A

shall consign the property management company to undertake the maintenance task according to the scope of maintenance at the specified time. Where damages of the leased plant are caused by human, the responsible party shall be liable to its maintenance or compensation of corresponding economic losses.

Article 24 The purpose of the leased plant as set in Article 7 in the Contract shall be only for production and operation of Party B. Party B shall not lease or lend the leased plan to the third party.

Article 25 Party B shall not destroy the leased plant or the equipment and affiliated facilities in the leased plant, nor change the purpose of the leased plant, or dismantle, build or destroy the structures of the leased plant.

Article 26 Where the leased plant is to be separated and/or decorated within the term of lease, Party B shall obtain the consent of Party A and bear the expenses produced hereby; in the meantime, Party B shall not destroy the building structures of the leased plant. Otherwise, Party B shall be responsible for recoveries to the original status and all the expenses for any damage or change of the building structures.

Where the leased plant is to be partially rebuilt within the term of lease, Party B shall obtain the consent of Party A and abide by rules and regulations of the state and the government of Shanghai on construction, firefighting, environmental protection, industrial hygiene and other aspects.

Translation for Page 15 of 84

Article 27 Clients who purchase and lease the same general-use plant shall not occupy the shared space and the area other than the leased plant for any reason. When installing equipment, pipelines or other facilities, Party B shall obtain the consent of the adjacent companies if such installations are involved with such companies, and shall not affect the normal use of the general-use plant of such companies. Violation to this regulation will result in that the responsibilities of removal of offences, recoveries to the original status and all the expenses shall be borne by Party B.

Article 28 Exterior walls and roofs of the leased plant shall not be built with any building (constructional) work (construction due to special situations shall be based upon the approval of Party A in written form).

Article 29 Party B shall do a good work in environmental sanitation in accordance with relevant laws, rules and regulations of the state and Shanghai City.

Article 30 The work relating to the management of the shared space of the leased plant and the environmental management of the plant shall be carried out in accordance with the Regulations.

Article 31 The public health, planting and maintenance and other matters outside the plant shall be borne by Party A.

Chapter 10 Renewal and Termination of the Contract

Article 32 Where Party B continues to lease the plant after the term of lease expires, the renewal may be applied. In such cases, Party B shall comply with the following conditions:

1. The application for renewal in written form shall be delivered to Party B six months before the term of lease of the general-use plant expires;
2. Where the term of renewal exceeds the business period, Party B shall have submit the approval document to prove that the investment approval authority has agreed to extend the business period of Party B and such document shall be delivered to Party B four months before the expiration of the term of lease of the general-use plant.

Article 33 After Party B proposes the application for renewal, Party A shall not make any legally binding promise concerning lease matters of the leased plant to any third party before the expiration of the term of lease specified in the contract.

Article 34 After Party B proposes the application for renewal, both parties may establish a new lease contract of the general-use plant by referring to the purpose specified in the contract.

Translation for Page 16 of 84

Article 35 Where the term of lease is not renewed after expiration, Party B shall completely deliver the leased plant to Party A upon acceptance of Party A or the property management company of Party A. Where the leased plant can't be dominated due to reasons of Party B, Party B shall continue to pay the rental of the leased plant to Party A based on the price of the day.

Article 36 Where either party terminates the contract due to special reasons, the party shall notify the other party in written form six month in advance. In this case, the contract may be terminated in advance upon the written consent of both parties.

Article 37 Where the leased plant isn't delivered within 60 days by Party A according to the specified time, Party B shall enjoy the right to terminate the contract unilaterally; where the rental isn't delivered within 60 days by Party B according to the specified time, Party A shall enjoy the right to terminate the contract unilaterally.

Chapter 11 Responsibilities for Breach of Contract

Article 38 Party A shall be deemed as breach of contract in any of the following circumstances, unless specified in the contract documents:

1. not providing the leased plant within the time specified in the contract;
2. the leased plant provided not be in conformity with conditions specified in the contract;
3. causing losses to the normal production and operation of Party B by operating in the leased plant without informing Party B;
4. violating other articles of the contract.

Article 39 Party B shall be deemed as breach of contract in any of the following circumstances, unless specified in the contract documents:

1. renting or lending the leased plant to other parties;
2. causing economic losses to Party A by damaging various supporting facilities;
3. damaging the leased plant or taking the liberty to change its building structures;
4. not delivering the leased plant to Party A in accordance with the regulations;
5. violating other articles of the contract.

Article 40 The breaching party shall be liable to the penalties to the other party. The penalties shall be calculated based on days as follows:

1. Daily penalty is RMB360;
2. Days of breach of contract = calendar days from the day of occurrence of the breach to the day of correction of the breach;
3. Amount of penalty = daily penalty X days of breach of contract.

Article 41 Where the economic losses caused to the other party by breaching the contract are more than the penalties, the breaching party shall also pay the compensation that exceed the penalties. The compensation shall be calculated according to the degree of economic losses and jointly assessed by both parties. The compensation may also be assessed by a professional and authoritative third party commonly entrusted by both parties.

Translation for Page 17 of 84

Article 42 Where the party performing the contract requires to continue the contract after the occurrence of breach of contract, the breaching party shall continue to perform the contract no matter whether the penalties and compensations are paid actually.

Article 43 The currency of penalties and compensations shall be in accordance with the regulations of Article 12.

Article 44 The penalties and compensations shall be paid within ten days from the day of confirmation of the breach responsibility; where the breaching fact still

continues on and after the day of payment for penalties and compensations, the breaching party shall continue to pay the penalties and compensations until the termination of such breaching behaviors.

Article 45 Any of the following circumstances shall be deemed as the overall payment. The overdue fine shall be paid as per 2‰ of the unpaid amount for every day overdue.

1. The rental of the leased plant is paid overdue by Party B;
2. penalties and compensations are paid overdue by either party.

Chapter 12 Others

Article 46 Both parties shall not be liable to losses caused to the other party due to the force majeure. In case the contract can't be implemented according to the terms and conditions agreed, the party encountered with the force majeure shall notify the other party and provide the details of the force majeure and effective supporting documents for the incapable performance of all or partial contract or the reasons for postponing the performance. Both parties may determine whether to dissolve the contract, exempt from partial performance of the contract or postpone the performance of the contract through negotiations based on the impact of the force majeure on the performance of the contract.

Article 47 The neighboring relationship between Party B and other parties within the term of lease shall be subject to relevant regulations of the state.

Article 48 Any disputes arising during the performance of the contract shall be resolved by both parties through negotiations. In case no settlement can be reached, the case shall be submitted for arbitration to the people's Court.

Article 49 For any matters uncovered in the contract, a written agreement may be reached between both parties upon consensus as parts of the contract, which enjoys equal legal effects with the contract.

The contract may be amended upon consensus of both parties. Both parties shall perform the contents specified in the contract before the validation of the document amended.

Translation for Page 18 of 84

Article 50 The contract shall be effective upon signatures of the legal representatives or authorized representatives of both parties.

Article 51 In case the state or Shanghai City amends the laws, rules and regulations or promulgates new laws, rules and regulations which are retroactive to the contract after

the validation of the contract, both parties shall amend the contract in time to protect legal rights and benefits of both parties from damages.

Article 52 The contract is prepared in Chinese.

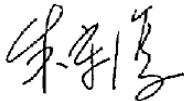

Article 53 The establishment, effect, interpretation, performance and dispute settlement shall be all subject to the jurisdiction of the People's Republic of China.

Article 54 The contract is prepared in quintuplicate, one copy for each party and one copy for the relevant real estate registration authority.

Audit Report

Qing-Zhen-Hu-Wai-Shen-Zi (2008) No.151

To Shanghai Shining Biotechnology Co., Ltd.,

We have audited the enclosed financial statements of Shanghai Shining Biotechnology Co., Ltd., including the balance sheet on December 31, 2007, profits statement, cash-flow statement, the statement of changes of the ownership interests and financial statements annotation for the year of 2007.

1. Responsibilities of the Company's management

The compilation of financial statements in accordance with the enterprise accounting standards and Enterprise Accounting System is the responsibility of the management of Shanghai Shining Biotechnology Co., Ltd., including: (1) designing, implementing and maintaining internal control related to the compilation of financial statements to make sure no significant misstatement caused by embezzlement or mistakes; (2) selecting and exerting appropriate accounting policies; (3) making reasonable accounting evaluations.

2. Responsibilities of the certified public accountants

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Auditing Standards of CICPA which requires us to plan and conduct the audit work and acquire reasonable guarantee for whether there is significant misstatement in the financial statements in compliance with the professional code of ethics.

An audit includes the implementation of audit procedures to obtain the audit evidence supporting the amounts and disclosures in the financial statements. The selected audit procedures lie on the judgment of certified public accountants, including the assessment of significant misstatement risk caused by the embezzlement or mistakes in the financial statements. During the risk assessment, we have considered internal control related to the compilation of financial statements to design appropriate audit procedures, but the purpose is not to express an opinion on the

efficiency of internal control. An audit also includes assessing the accounting policies concerned and significant accounting estimates made by management authority in charge, as well as evaluating the overall financial statement presentation.

We believe that our audit evidence is adequate and appropriate to provide a reasonable basis for our opinion.

3. Items resulting in the reservation of opinion

- (1) We were unable to carry out the stocktaking inspection and conduct satisfactory alternative auditing procedures to express an audit opinion on quantities, conditions and the rationality of delivery of ending inventories of Shanghai Shining Biotechnology Co., Ltd.
- (2) As the company was unable to provide all bank statement copies, we were unable to provide the confirmation and conduct satisfactory alternative auditing procedures to express an audit opinion on the rationality of ending balance of bank deposits of Shanghai Shining Biotechnology Co., Ltd.
- (3) Due to the restriction of the audit scope, we were unable to express an audit opinion on the rationality of ending balance of short-term loans of Shanghai Shining Biotechnology Co., Ltd.

4. Audit opinion

We believe that, the financial statements of Shanghai Shining Biotechnology Co., Ltd. conform to the regulations of enterprise accounting standards and Enterprise Accounting System issued; and in all the significant aspects fairly show the financial condition on December 31, 2007, the operation result and the cash-flow condition for the year of 2007 of the company.

Business scope: production of micro ecological capsule and functional food (the above-mentioned do not contain drugs), research and development of drugs, sales of our products and provision of relevant consultation services (subject to license where a license is required).

II. Significant accounting policies:

1. Accounting systems and principles

The company carries out enterprise accounting systems and enterprise accounting standards.

2. Fiscal year

The fiscal year is from January 1st to December 31st every year in the Gregorian calendar.

3. Accounting principles

The accounting principle of the company is accrual basis.

4. Valuation basis

The company takes the incurred cost method as the valuation basis.

5. Bookkeeping base currency

(1) The company takes RMB as the bookkeeping base currency.

(2) The company adopts the market exchange rate on the first trading day of the current month to convert to RMB for bookkeeping of economic businesses related to foreign currency. The foreign currency balance in the foreign currency account at the end of the current year is adjusted according to the market exchange rate of the current day and the difference is charged into financial expenses of the current month.

6. Calculation method of accounts receivable and provision for bad debts

(1) Accounts that should be received from enterprises accepting labor services due to provision of such services are typically entered into the account book as cost in its actual amount.

(2) Identification standards of bad debts: accounts receivable that couldn't be recovered in accordance with liquidation procedures specified with the law due to the cancellation or bankruptcy of obligors; accounts receivable that couldn't be recovered due to the death of obligors who leave no property or no one to undertake the obligation; accounts receivable that couldn't be recovered as the obligors don't perform the obligation of debt repayment within the time limit and it is proved that the accounts couldn't be recovered and are cancelled after verification according to the management authority of the company.

(3) The company adopts the allowance method for calculation of bad debts.

7. Inventories

The purchases of inventories are calculated according to the actual costs while their deliveries are calculated according to the weighed average method.

8. Fixed assets and their depreciation

The purchase of fixed assets or new fixed assets is calculated according to the actual costs.

The depreciation of fixed assets adopts the straight line method, namely accrued on average within the estimated service life from the next month of usage after deducting the estimated net value of fixed assets from their original value.

Assets Type	Estimated residue	Estimated service life
Machines	10% of the original value	15 years
Transportation facilities	10% of the original value	8 years
Office equipment	10% of the original value	8 years

9. Identification of sales

The sales of goods: the delivery of goods, the transfer of their ownerships to the buyers and the receipt of payment or evidence of receiving the payment are identified as the realization of sales.

Revenues of labor services: the provision of labor services and the receipt of payment of evidence of receiving the payment are identified as the realization of revenues.

Audit Report

Qing-Zhen-Hu-Wai-Shen-Zi (2009) No.134

To Shanghai Shining Biotechnology Co., Ltd.,

We have audited the enclosed financial statements of Shanghai Shining Biotechnology Co., Ltd., including the balance sheet on December 31, 2008, profits statement, cash flow statement, the statement of changes of the ownership interests and financial statements annotation for the year of 2008.

1. Responsibilities of the Company's management

The compilation of financial statements in accordance with the enterprise accounting standards and Enterprise Accounting System is the responsibility of the management of Shanghai Shining Biotechnology Co., Ltd., including: (1) designing, implementing and maintaining internal control related to the compilation of financial statements to make sure no significant misstatement caused by embezzlement or mistakes; (2) selecting and exerting appropriate accounting policies; (3) making reasonable accounting evaluations.

2. Responsibilities of the certified public accountants

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Auditing Standards of CICPA which requires us to plan and conduct the audit work and acquire reasonable guarantee for whether there is significant misstatement in the financial statements in compliance with the professional code of ethics.

An audit includes the implementation of audit procedures to obtain the audit evidence supporting the amounts and disclosures in the financial statements. The selected audit procedures lie on the judgment of certified public accountants, including the assessment of significant misstatement risk caused by the embezzlement or mistakes in the financial statements. During the risk assessment, we have considered internal control related to the compilation of financial statements to design appropriate audit procedures, but the purpose is not to express an opinion on the

efficiency of internal control. An audit also includes assessing the accounting policies concerned and significant accounting estimates made by management authority in charge, as well as evaluating the overall financial statement presentation.

We believe that our audit evidence is adequate and appropriate to provide a reasonable basis for our opinion.

3. Items resulting in the reservation of opinion

- (4) We were unable to carry out the stocktaking inspection and conduct satisfactory alternative auditing procedures to express an audit opinion on quantities, conditions and the rationality of delivery of ending inventories of Shanghai Shining Biotechnology Co., Ltd.
- (5) As the company was unable to provide all bank copies, we were unable to provide the confirmation and conduct satisfactory alternative auditing procedures to express an audit opinion on the rationality of ending balance of bank deposits of Shanghai Shining Biotechnology Co., Ltd.
- (6) Due to the restriction of the audit scope, we were unable to express an audit opinion on the rationality of ending balance of short-term loans of Shanghai Shining Biotechnology Co., Ltd.

4. Audit opinion

We believe that, the financial statements of Shanghai Shining Biotechnology Co., Ltd. conform to the regulations of enterprise accounting standards and Enterprise Accounting System issued; and in all the significant aspects fairly show the financial condition on December 31, 2008, the operation result and the cash-flow condition for the year of 2008 of the company.

Business scope: production of micro ecological capsule and functional food (the above-mentioned do not contain drugs), research and development of drugs, sales of our products and provision of relevant consultation services (subject to license where a license is required).

II. Significant accounting policies:

1. Accounting systems and principles

The company carries out the Enterprise Accounting Systems.

2. Fiscal year

The fiscal year is from January 1st to December 31st every year in the Gregorian calendar.

3. Accounting principles

The accounting principle of the company is accrual basis.

4. Valuation basis

The company takes the incurred cost method as the valuation basis.

5. Bookkeeping base currency

(1) The company takes RMB as the bookkeeping base currency.

(2) The company adopts the market exchange rate on the first trading day of the current month to convert to RMB for bookkeeping of economic businesses related to foreign currency. The foreign currency balance in the foreign currency account at the end of the current year is adjusted according to the market exchange rate of the current day and the difference is charged into financial expenses of the current month.

6. Calculation method of accounts receivable and provision for bad debts

(1) Accounts that should be received from enterprises accepting labor services due to provision of such services are typically entered into the account book as cost in its actual amount.

(2) Identification standards of bad debts: accounts receivable that couldn't be recovered in accordance with liquidation procedures specified with the law due to the cancellation or bankrupt of obligors; accounts receivable that couldn't be recovered due to the death of obligors who leave no property or no one to undertake the obligation; accounts receivable that couldn't be recovered as the obligors don't perform the obligation of debt repayment within the time limit and it is proved that the accounts couldn't be recovered are cancelled after verification according to the management authority of the company.

(3) The company adopts the allowance method for calculation of bad debts.

7. Inventories

The purchases of inventories are calculated according to the actual costs while their deliveries are calculated according to the weighed average method.

8. Fixed assets and their depreciation

The purchase of fixed assets or new fixed assets is calculated according to the actual costs.

The depreciation of fixed assets adopts the straight line method, namely accrued on average within the estimated service life from the next month of usage after deducting the estimated net value of fixed assets from their original value.

Assets Type	Estimated residue	Estimated service life
Machines	10% of the original value	15 years
Transportation facilities	10% of the original value	8 years
Office equipment	10% of the original value	8 years

9. Identification of sales

The sales of goods: the delivery of goods, the transfer of their ownerships to the buyers and the receipt of payment or evidence of receiving the payment are identified as the realization of sales.
